

10 STRONG REASONS

FOR USING TOOL MANAGEMENT

1 TIME don't lose it, save it

Work digitally and have no search times, but a fast tool assembling and a quick set-up.

2 MONEY big savings for other investments

Entrepreneurs who use a Tool Management software save up to 30% tool costs - you can achieve that, too!

3 FUN love your work with easy-to-use software

Try Tool Management software and become a digital star in organizing your tools just as organizing your Tetris bricks.

4 OVERVIEW always be ahead of the game

Tool Management is the perfect game changer helping your production to get ahead of the game.

5 AGILITY you don't need Yoga – to get your work processes smoothly

What you need is digital Tool Management – to always get the tooling information you need to make the right decisions.

6 FUTURE play the digital game and set the right course

Being in the digital universe you will realize that Industry 4.0 is only the beginning. Become a digital star and set new levels in your production.

7 QUALITY aim higher than Mount Everest

Being the leader in price and quality? We think it is possible to achieve it with digital Tool Management!

8 WORKFLOW empower your team to be as efficient as bees

Keep your verified processes and save them through digitalization. Be a successful team just like our bees and boost your productivity!

9 NETWORKING with one click around the world

Just like connecting at a networking event, your data connect seamlessly across shopfloor.

10 DATA trust your database and raise the golden treasure

Your database is like having a golden treasure – but only if it's valuable. Learn how to find your treasure and how to start secretly mining the gold.
